GUIDANCE FOR APPLICANTS

It is necessary for every item asked for to be completed and that all instructions are carried out. **The details should be typewritten.** If the details are not typewritten then you will be responsible for any mistakes. Replacements for wrongly written certificates cost US\$30.00 each.

Nationality should be only 1 and should be the one which you carry now, as stated in your passport. Your ethnic race is not necessarily your nationality. Do not put 2 nationalities. If you have gone from one country to another and are now a citizen of the new country then that is your nationality.

You should print **only 1 forename and 1 surname** as there is usually not enough room for more than 1. If you put more than 1, without an explanation why, and the wrong one is written on your certificate then you will have to pay \$30.00 for a replacement.

Plaque number is that which is held by the instructor at the gymnasium where you train. Every instructor must have an ITF plaque to be authentic.

ITF 'status card' number should be held by every black belt. People without a status card are not permitted to grade.

Personal history and thesis are requirements for grading to 4th. Degree. These should be submitted to the ITF Secretariat at least 3 months in advance of the grading date so that they can be approved in time for the grading. The thesis should be about Taekwon-Do. It could be what you think about TKD at present, or how you see it developing in the future. It could be about any part of TKD such as warming up exercises or patterns. It could also be about the anatomy in connection with TKD.

For gradings to 4th. Dan and higher you must obtain **ITF permission** to grade before you take the grading.

Should you wish to print the form out from your own computer we must have the form in exactly the same layout.

SHOULD YOU NOT COMPLY WITH ALL THAT IS ASKED FOR, THEN YOU WILL NOT BE PERMITTED TO TEST OR THE TEST RESULT WILL NOT BE VALID.
